

Vision-Box CUSS 2 SDK

A Faster, More Cost-Effective & Reliable
Software Development Kit for CUSS 2
Applications

The Vision-Box CUSS 2 SDK brings together a group of tools that enable the programming of CUSS 2-compliant applications.

The applications developed with CUSS 2 SDK, can be natively used at Vision-Box Biometric CUSS 2 Platform or at any other vendor that is using the new CUSS 2 standard.

Benefits:

Vision-Box CUSS 2 SDK helps in-house software developers write CUSS 2-compliant applications faster by using the technologies they are familiar with, reducing the cost to build and maintain CUSS applications.
