

## Seamless Kiosk<sup>®</sup> Border Solution

Vision-Box's self-service border control kiosk is an inclusive, high-quality biometrics solution for traveller registration that fully adapts to every user without exceptions, and to every context given its compact footprint.

The Seamless Kiosk<sup>®</sup> includes a set of features that increases the safety and security of the border process, such as face and fingerprint liveness detection, and supports different use cases such as **EES pre-enrolment, Registered Traveller Program (RTP) enrolment, Primary Inspection Kiosk (PIK) and Automated Passport Control (APC)**, being prepared to evolve with the market and new use cases.

With the goal of optimising the self-service usage experience by any traveller, the kiosk offers automatic height adjustment of the face capture module to the user's eye level as well as intelligent light compensations, facilitating the traveller's passage and, consequently, automating border control processes.

### Compliance at its core

- High quality biometrics: Full-frontal face capture and high-quality fingerprint capture
- Accessible by design :
  - Americans with Disabilities Act (ADA) compliant
  - Canadian Standards Association (CSA) compliant
  - European Accessibility Act (EAA) compliant

## Flexible device

- Biometric by design
- Automatic height adjustment of face capture module
- Intelligent light compensations
- Liveness detection to prevent spoofing
- Compact footprint
- Modular design
- Multiple configurations combining face capture, fingerprint scanner and receipt printer

## Seamless Experience for all Border Crossings

- Active biometric services integrated with seamless flow experience
- Liveness check offers a secure self-service experience
- Interoperability: integration with all Governments and Authorities Systems
- Leveraging Digital Identity Management, which is privacy-by-design certified
